PROFESSIONAL SUMMARY

BSc AI & ML undergraduate with expertise in Frontend & Web Development (React.js, JavaScript, HTML/CSS) and AI integration. Skilled in building responsive, high-performance web applications, integrating RESTful APIs, and developing scalable user interfaces. Strong background in Machine Learning, Python, and modern software development practices. Passionate about leveraging Web and AI technologies to build innovative digital solutions.

EDUCATION

Vinoba Bhave University

July 2024 – August 2027

Bachelor of Science in Artificial Intelligence & Machine Learning

Internshala Trainings

July 2025 – September 2025

Data Science Certification

TECHNICAL SKILLS

Web Technologies: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, RESTful APIs

Backend Technologies & Databases: Node.js, MySQL

Programming Languages: Python, JavaScript, C, SQL

Machine Learning & AI: Regression, Classification, Feature Engineering, Model Integration

Libraries & Frameworks: Pandas, NumPy, Scikit-Learn, Matplotlib

Tools & Platforms: Git, GitHub, VS Code, Google Colab, Jupyter Notebook

PROJECTS

Portfolio Website [\[Live Demo\]](#)

HTML, Tailwind CSS, JavaScript

- Designed and developed a fully responsive personal portfolio application using React.js and Tailwind CSS.
- Optimized application performance and implemented clean, reusable UI components for seamless user experience.
- Showcases interactive project displays, technical skills, certifications, and live client demo links.

Cyber Crime Record Management System

Python, MySQL, Web/UI Integration

- Developed an end-to-end management system to analyze and track cybercrime records efficiently.
- Designed secure database architecture and built dynamic dashboards for monitoring crime trends.
- Integrated data visualization features for generating analytical reports in real time.

House Price Prediction Model

Python, Scikit-Learn, Machine Learning

- Built a Linear Regression prediction pipeline with comprehensive data cleaning and feature engineering.
- Evaluated model accuracy using standard metrics and optimized prediction accuracy.

Voice-Control Smart Car

Arduino C/C++, Bluetooth, Hardware Integration

- Built a DIY robotics project controlled via real-time voice commands using Arduino Uno and HC-05 Bluetooth module.
- Programmed directional logic and power delivery using L298N motor drivers and Android application integration.

INTERNSHIPS

SkillFied Mentor – *Data Analytics Intern*

April 2026

- Handled real-world data processing, cleaning, and structured exploratory data analysis using Python and Pandas.
- Built analytical dashboards and reports to present data-driven insights.

Math Coders Pvt. Ltd. – *AI Trainer & Robotics Intern*

June 2025 – August 2025

- Trained students on Artificial Intelligence concepts and assisted in hands-on robotics implementations.

Internshala Trainings – *Data Science Intern*

July 2025 – September 2025

- Applied Machine Learning algorithms to build predictive models on end-to-end datasets.

CERTIFICATIONS

- Google – Crash Course on Python (Coursera)
- IBM – Generative AI: Introduction and Applications (Coursera)
- HP LIFE – AI for Beginners
- Data Science Certification – Internshala Trainings
