Professional Summary

AI & Machine Learning undergraduate with strong interest in Artificial Intelligence, Machine Learning, Data Science, Generative AI and Python Development.

Experienced through internships, industrial certifications, research projects and open-source contributions. Passionate about solving real-world problems using AI-driven solutions and continuously learning modern technologies.

Education

Vinoba Bhave University

Bachelor of Science in Artificial Intelligence & Machine Learning

July 2024 – August 2027

Internshala Trainings

Data Science Certification

July 2025 – September 2025

Experience

SkillFied Mentor

Data Analytics Intern

April 2026

- Worked on real-world datasets.
- Performed data cleaning and preprocessing.
- Created dashboards and analytical reports.
- Worked with Python, Pandas and Machine Learning.

Internshala Trainings

Data Science Intern

July 2025 – September 2025

- Learned Machine Learning algorithms.
- Worked on end-to-end Data Science projects.
- Built predictive models using Python.

Math Coders Pvt. Ltd.

AI Trainer & Robotics Intern

June 2025 – August 2025

- Trained students in Artificial Intelligence.
- Worked on Robotics and AI applications.
- Assisted in AI model implementation.

Projects

House Price Prediction

- Built a Linear Regression model for predicting house prices.
- Performed data cleaning, feature engineering and model evaluation.

Portfolio Website

- Designed a responsive personal portfolio using React.js and Tailwind CSS.
- Showcases projects, internships, certifications and technical skills.

Cyber Crime Record Management System

- Developed a system to manage and analyze cyber crime records efficiently.
- Implemented secure database storage and retrieval using MySQL and Python.
- Designed dashboards for monitoring crime trends and generating analytical reports.

Voice-Control Car Project

- Built a DIY robotics project: a car controlled via voice commands using Arduino and Bluetooth.
- Integrated HC-05 Bluetooth module with Arduino Uno for wireless communication.
- Controlled car movement (forward, backward, left, right, stop) in real time.
- Used L298N motor driver for motor control and rechargeable battery pack for power.
- Programmed in Arduino IDE (C/C++) and paired with Android voice control app.

Technical Skills

Programming Languages: Python, SQL, C, JavaScript

Machine Learning: Regression, Classification, Feature Engineering, Model Evaluation

Data Science: Data Cleaning, Data Analysis, EDA, Data Visualization

Libraries: Pandas, NumPy, Scikit-Learn, Matplotlib

Web Technologies: HTML, CSS, React.js, Tailwind CSS

Databases: MySQL

Tools: Git, GitHub, VS Code, Google Colab, Jupyter Notebook

Certifications

- Google – Crash Course on Python (Coursera)
- IBM – Generative AI: Introduction and Applications (Coursera)
- HP LIFE – AI for Beginners
- Kaggle – Python Coder Badge
- Data Science Certification – Internshala Trainings

Achievements

- Founder of Darshana Search Engine.
- GSSoC'26 Contributor.
- Successfully completed multiple AI, Machine Learning and Python certifications.
- Built AI, Data Science and Web Development projects using modern technologies.
- Active learner on Kaggle, Coursera and HP LIFE platforms.
